A New Turck you Grannions, -Officer Whish listinforms us of a new game which has been introduced by the "charpers" on the leyer. It is as follows: The sharper places a gatvame of counterfeit 35 gold piece into an a get vanised counterfeit \$5 gold piece into an empty pocket book. Getting alongside of a green one, he opens and looks into it, holding it in such a way that "greeny" sees the "yellow boy." He pretends as if he does not see it, and closing the book, declares he is out of money, and will self the pocket book for a mere trifle. He asks the green one if he will give \$2 for it, and he supposing there is a \$5 in it, which the holder knows not, readily gives the \$2, slaps the book into his pocket, and silps off from the sharper, for pocket, and slips off from the sharper, for in it." Scores have thus been swindled out of their money, some giving as high as three or four dollars for a pocket book not worth a quarter of a dollar. —Cin. Enq.
